STATISTICAL  
REPORT

## PREFACE

Ghana, a country marching ahead on the path of development, relies mainly on data/statistics for planning at the national and the sub-national levels. As a result, the need for reliable and timely statistics to inform policy formulation and decision making cannot be over emphasized. Availability of comprehensive analyzed data provides users such as educationists, civil society groups and particularly policy makers, with a wealth of information for planning and policy formulation.

As part of the Ministry of Employment and Labour Relations' (MELR) mandate to ensure the availability of timely, relevant and accurate employment and labour-related data/statistics, MELR compiles Statistical Report annually using administrative data generated by its Departments/Agencies. The 2019 Statistical Report, which is a sequel of the 2018 Statistical Report, presents an effective analysis on employment and labour-related issues in an accessible and user-friendly manner to facilitate informed decision making towards promoting decent working conditions and ensure harmonious labour relations in Ghana.

The 2019 Statistical Report is a buildup on the success of the previous editions both in scope and content. The development of this Report is in fulfilment of a strategic and significant requirement of collating critical information and data reflecting trends and developments in the Sector annually. It is also a manifestation of the Ministry's resolve to adopt an evidence- based approach to addressing the challenges in the Sector. Through this practical approach, the Ministry is assured that meaningful interventions by both Government and Social Partners would be rolled out to sustainably address problems of the Sector relating to issues pertaining to employment and labour relations.

The Report has gone through extensive engagements and consultations with Departments/Agencies under MELR and validated by stakeholders. It is the expectation of the Ministry that the 2019 Statistical Report will provide valuable insights into developments within the Sector as well as serve as a key source of reference and also contribute significantly to the Ministry's policy objective of achieving full, decent, productive and freely chosen employment.

HON. IGNATIUS BAFFOUR AWUAH (MP)  
MINISTER, MELR

## **ACKNOWLEDGEMENTS**

The Ministry of Employment and Labour Relations (MELR) wishes to acknowledge the invaluable efforts of its Departments and Agencies for their inputs in the development of the 2019 Annual Statistical Report.

The Ministry recognizes the immense contribution of its Departments and Agencies for their continuous provision of data/statistics which has aided the RSIM Directorate to come out with this resourceful document to inform decision making.

The MELR wishes to express its special appreciation to the sector Minister and the Chief Director for their immeasurable support for the production of this Report.

It is our expectation that this report will yield the required outcome in providing official employment and labour related statistics for users.

## EXECUTIVE SUMMARY

The mandate of the Ministry of Employment and Labour Relations (MELR) is to formulate policies on labour and employment issues. It has successfully rolled out programmes and interventions for unemployment, job creation and professional development, by ensuring that data/statistics on comprehensive employment and labour from its Departments/Agencies is available to inform policy.

The MELR as a way of providing data on its activities and the activities of its Departments/Agencies, develops an annual Statistical Report. Thus, the 2019 Statistical Report is the sixth edition of the reports since its first publication in 2015. The Report over the years has helped in assessing the progress of policy implementation, laws and programmes of the Ministry and its Departments/Agencies.

The 2019 Statistical report has been standardized in order to provide reliable report to meet stakeholders' expectations. Accordingly, the report has taken into consideration comments, suggestions and recommendations of all stakeholders. Data presented in the report has been disaggregated by geographical locations, age groups and gender.

The National Daily Minimum Wage (NDMW) was fixed at Gh¢10.65 in 2019. This amount is a 10% (Gh¢0.97) increment over that of the year 2018. Also, the base pay was fixed at Gh¢9.10 in 2019. This is an indication of a 10% (Gh¢0.83) increment over the previous year.

As at December 2019, the Fair Wages and Salaries Commission (FWSC) had migrated an estimated number of 528,067 Public Service employees onto the Single Spine Salary Structure (SSSS). This number represents 219,600 (41.59%) females and 308,467 (58.41%) males. The last batch of Public Service employees who were migrated onto the SSSS in 2013 was 1,866. Thus, a total of 139 Institutions with 480,436 employees have been migrated onto the SSSS.

In 2019, the Labour Department undertook 202 labour inspections, representing a decline by 28.9% over that of 2018 and the lowest across the four years under review. The Public Employment Centre of the Labour Department in 2019 registered a total of 4,629 (3,877 males and 752 females) jobseekers. At the end of the review year, 4,019 job vacancies in aggregate were notified by various sectors of the economy thus Private Employers, Public Corporations, Central Government and Local Authority. The Labour Department registered 57 Private Employment Agencies (PEAs) representing a decline by 29.63% relative to 2018. Out of the 490 Complaints/Disputes, 253 cases were resolved constituting 48.37%. Six (6) cases were referred while 231 Disputes/Complaints are outstanding. The number of work accidents reported to the Labour Department in the year under consideration was 961. The data indicates that 891 work injuries were reported in 2019. A total of 8,211 labour clearance certificates were issued by the Labour Department nationwide in the year under consideration.

The Department of Factories Inspectorate (DFI), in 2019, recorded a total of 521 new premises nationally. A total of 2,936 premises were visited nationally for inspection during the year under review. The data gathered shows that the year 2019 had an increase of 36.7% in the number of inspections conducted. The Department recorded a total of 41 occupational accidents, out of which, 4 (9.7%) were fatal and 37 (90.2%) non-fatal. Also, there were 21 (51.2%) males and 20 (48.7%) females involved in various types of accidents across the country, out of which 38 accidents were investigated constituting 92.68%. Nationally, the Department organised a total number of 91 OSH talks which accounted for 89.6%, an improvement over the year 2018.

As at 2019, the Department of Co-operatives (DOC) registered a total of 15,707 Co-operatives, out of which, 9,993 (63.6%) are operational. New co-operatives registered were 3,676. The Department conducted a total of 1,159 inspections/auditing of Co-operative Societies. Co-operatives registered a total of 174,639 new members. The membership strength of all Co-operative Societies in Ghana cumulatively stood at 1,814,581. In the review year, 7,436 people were employed by Co-operative Societies. In the year 2019, 3,676 new groups were organised into Co-operative Societies. Cumulatively, 7,197 groups were organised into Co-operatives across the ten regions of the country. New trainings organised in bookkeeping increased from 533 in 2018 to 802 in 2019 representing 50.5% increase. The Capital Base of Co-operatives increased by Gh¢9,609,500.00 in 2019. This was an increase of about 300 percent over the previous year.

In 2019, the National Vocational Training Institute (NVTI) registered a total of 6,345 Master Craft Persons (MCP) representing an increase by 44.2% relative to 4,400 in 2018. Out of the total MCPs, 1,618 MCPs were mobilized for proficiency test and 1,250 were accredited. Less monitoring (785) was conducted in 2019 compared to the 850 in 2018. There was a decrease in the number of trainees (2,862) enrolled by the Institute in 2019 as compared to 3,658 in 2018 representing 21.8% decline. A total of six (6) short courses were organised for 135 trainees in 2019. The number of trainees decreased relative to 312 in 2018. This depicts 56.7% decrease in total enrolment as compared to 21.0% decrease in 2018. The number of apprentices registered by the Institute declined from 6,840 in 2018 to 4,425 in 2019 representing 35.3% decrease. At the end of the review year, the NVTI had 322 staff strength comprising 233 males and 99 females. The staff strength increased by 4% and 5% relative to 2017 and 2018 respectively. Comparing the Staff strength to the required number of staff needed to operate effectively, the latter has continuously fallen short of the former. In 2017, 2018 and 2019, the staff strength fell short of the ideal staff strength by 56%, 56% and 42% respectively.

The Integrated Community Centres for Employable Skills (ICCES) enrolled 1,551 (806 males and 747 females) trainees in 2019 bringing the total student population to 3,459. Out of the total enrolled, 195 exited early and 835 graduated. The year under consideration saw 2,221 enrolled for short courses in varied trades, representing an increase of 832 and 1,998 over that of 2018 and 2017 respectively. Out of 2,221, 66 exited early and 2,155 graduated.

At the end of the review year, 65 trainees progressed to tertiary institutions indicating an increased by 91.6% relative to 2018. In total, 366 trainees were employed by industry. At the end of the review year, the formal sector employed 17 trainees and the informal sector employed 380 trainees. Out of the 1,152 trainees on attachment, 685 trainees were monitored as compared to 144 and 72 in 2018 and 2017 respectively. In 2019, the ideal staff required was 526 but 331 was available leaving a deficit of 195. This trend is no exception to the past years.

During the year under review, the Opportunities Industrialization Centre, Ghana (OICG) enrolled 1,475 fresh students bringing the total student population to 1,754. Under the Bread for the World (BfbW) project, 603 trainees enrolled in short courses with 336 trainees graduating. The YIEDIE project enrolled 411 (383 males and 28 females) trainees with 9 exiting earlier. Under the YIEDIE project- soft skill training Programme, 644 students were admitted in 2019 as compared to 325 in 2018. At the end of the training Programme, 1 student exited early with the rest graduating. The GEOP Project also enrolled 113 trainees out of which 12 could not complete the programme with 81 graduating successfully. The actual staff strength was 29, which is 42 less the ideal staff strength.

In 2019, the Management Development and Productivity Institute (MDPI) training courses attracted participants from different countries including The Gambia, Liberia, Sierra Leone and Ghana. Together, 547 participated in the courses, out of which 145 participants pursued Regular courses while 402 took Inplant courses. The MDPI offered 88 programmes/courses in 2019, an addition of 12 new programmes, compared to 76 programmes offered in 2018. The increase in courses was accompanied by an increase in the number of enrolments.

In 2019, the National Pensions Regulatory Authority (NPRA) reported a total number of 1,625,253 Active Contributors, 215,852 Pensioners and 68,431 Establishments. A total number of 241 Private Pension Schemes was reported to be in operation; this was a decrease by 7.66% relative to 2018. Trustees and Service Providers (Privately Manages Schemes) in 2019 decreased to 94 relative to 124 in 2018. At the end of the review year, the total asset portfolio for SSNIT Scheme and Private Pension Scheme was Gh¢26,191,569,255.00. The 3tier pension schemes, in total, grew at Gh¢117,538,678,251.85 from 2012 to 2019. Under the informal sector, a total number of 31 private pension schemes were registered.

The Youth Employment Agency (YEA) in 2019, engaged 23,449 in their various beneficiary Modules/Programmes: Youth in Community Service and Security Module; Youth in Community Improvement; Youth in Sanitation and Coastal Sanitation; Community and Health Assistant; Community Teaching; Youth in Agriculture and Afforestation; Internships. By gender, the ratio of the total number of males to females engaged was 3:1 compared to 2016 which was 1:1 while 2017 was 2:1. A total number of 4,549 (19%) participants were in all the regions at the end of the review year as compared to 7,030 and 1,402 in 2016 and 2017 respectively.

## **1.0 INTRODUCTION**

The 2019 Statistical Report is the sixth edition of the Ministry of Employment and Labour Relations (MELR) which has since 2015 been produced consecutively. The Report which spans from January to December 2019 consists of administrative data/statistics which are collated and verified by MELR and its Departments/Agencies. The data collection, analysis and reporting templates were standardized and this has helped to produce a Statistical Report that is well founded and has been pertinent over the years. This edition has also inculcated the views and concerns of users of the previous editions in order to improve the current report. The Report, like the previous years has helped in monitoring the performance, planning and decision making of the Ministry and its Departments/Agencies.

Globally, economies have recognized the essence of data/statistics for national and public policy decisions. Studies have also shown the relevance of data/statistics to national development. With the relevant data, it is easier to set realistic goals and track the progress of government projects, initiatives and programmes. However, it is highly impossible to achieve the above, in the absence of quality data hence the design, monitoring and evaluation of government policies stalls.

Policymaking innovation is the idea that government can use data to model future policy implications and support potential policy decisions. In order to achieve the Sustainable Development Goals (SDG), it is essential that policy making is backed by relevant data/statistics. Obviously, it is impossible to achieve evidence-based policy direction without the relevant data/statistics in the current dispensation. The 2019 Statistical Report thus provides as evidence, labour statistics for the purposes of policy making by government and also for use by the general public.

This year's Report outlines activities of the MELR's Departments/Agencies. The data is disaggregated into geographical locations, age and gender in addition to other formats. It further gives a broader data coverage on employment registration and job placements, labour administration, arbitration and inspections, occupational safety and health, registration and labour skills development of co-operatives and pensions regulations.

The 2019 edition of the Statistical Report will assist in managing data and planning of policy in addition to serving as a valuable reference material on the labour market and labour statistics for government, the private sector and the general public in quest of data/statistics on the Sector's activities.

## 2.0 BACKGROUND

As part of its core mandate, the MELR and its Departments/Agencies undertake the production of labour and employment related data/statistics to facilitate decision-making, thus, for policy planning and implementation. In gathering information to fulfil its mandate, the Ministry and its Departments/Agencies go through a process of collection, collation and management of administrative data/statistics on employment and labour related issues.

It is worth noting that these activities help to bring to the fore performance, institutional planning and realignment, efficient resource management and policy/projects/programmes design and implementation.

These processes are spearheaded by the Research, Statistics and Information Management (RSIM) Directorate of the Ministry. The RSIM Directorate compiles the administrative data generated by the Ministry and its Departments/Agencies into a comprehensive Statistical Report for circulation to all stakeholders for their information and use as needed.

Some of the data collected by the MELR and its Departments/Agencies include:

**Table 1: Functions and Type of Data Collected by the Sector**

| <b>No.</b> | <b>Department/ Agency</b>                   | <b>Functions</b>   | <b>Type of Data Collected</b>   |
|------------|---|--|---|
| 1.         | Ministry of Employment and Labour Relations | <ul style="list-style-type: none"> <li>i. Initiate, formulate and coordinate sector policies and programmes, as well as schemes to ensure sustainable accelerated employment generation and human capital development;</li> <li>ii. Develop strategies and mechanisms to ensure and promote industrial peace and harmony;</li> <li>iii. Develop and periodically review all legal and policy instruments for the Sector;</li> <li>iv. Ensure the development and review of appropriate information management systems to facilitate the availability of timely, relevant and accurate employment and labour statistics;</li> <li>v. Coordinate all national employment initiatives with the collaboration of relevant stakeholders of the economy;</li> <li>vi. Ensure the monitoring and evaluation of sector policies, programmes and projects in</li> </ul> | Data on NDMW, performance of policies and implementation of Sector budget; data on jobs created by government |

| No. | Department/<br>Agency | Functions  | Type of Data<br>Collected  |

|     |                            | <p>consistency, external competitiveness and employee performance are fully reflected in the public service pay system;</p> <p>x. To advise on performance management processes and indicators;</p> <p>xi. To develop a mechanism within the public service salary system to attract and retain critical skill;</p> <p>xii. To undertake research on salaries, benefits and allowances;</p> <p>xiii. To review and propose changes to salary related components in enactments; and</p> <p>xiv. Perform other functions related to the objects of the Commission.</p>                       |   |
| 14. | National Labour Commission | <p>i. To facilitate the settlement of industrial disputes;</p> <p>ii. To settle industrial disputes;</p> <p>iii. To investigate labour related complaints, in particular unfair labour practices and take such steps as appropriate to prevent labour disputes;</p> <p>iv. To maintain a data base of qualified persons to serve as mediators and arbitrators;</p> <p>v. To promote effective labour co-operation between labour and management; and</p> <p>vi. To perform any other function conferred on the Commission under the Labour Act, 2003 (Act 651) or any other enactment.</p> | Data on labour disputes resolution; strike actions and lockouts; training for mediators, arbitrators, Unions and Employers. |

The RSIM Directorate collates data/statistics on the activities of MELR Departments/Agencies to serve as the basis for the development of Sector Statistical Reports every year.

The 2019 MELR Statistical Report, just as the preceding editions, will help the Ministry measure how employment problems are being addressed through planning, policy formulation, implementation and decision-making.

### **3.0 OBJECTIVE**

The objective of the 2019 MELR Statistical Report is to disseminate to the main stakeholders of the Ministry, data/statistics generated by the Ministry and its Departments/Agencies on all Sector activities and programmes, to inform policy decision-making.

### **4.0 SCOPE OF WORK**

The Report summarises and presents the data/statistics generated by the Ministry; and its Departments and Agencies for the period January to December 2019. The information is presented in broad categories of the Tripartite, Salary Migration, Labour Registrations and Inspections, Occupational Safety and Health, Employment Creation, Skills Training and Development, Pension Regulations and Labour Disputes Resolution.

### **5.0 METHODOLOGY**

To ensure that accurate and reliable time series data are collected, collated and presented to stakeholders, the RSIM Directorate organised a preparatory meeting for the update and validation of the customised data collection templates designed for the 2019 MELR Statistical Report. The revised template takes into consideration comments, suggestions, feedback and recommendations of all stakeholders, especially the data generators themselves, *i.e.* the Departments/Agencies. The templates were then forwarded to the respective Departments and Agencies to populate and re-submit. The data was compiled, analyzed and used to develop a draft of the 2019 MELR Statistical Report. Subsequently, the draft Report was reviewed at a Stakeholders' Validation meeting. The validated document was then disseminated (both in soft and hard copies).

## 6.0 PRESENTATION OF DATA

The details of the data collated and analyzed are discussed below:

### 6.1 National Daily Minimum Wage, Base Pay and Migration onto the Single Spine Salary Structure

#### *National Tripartite Committee*

Figure 1: Pay Negotiation (Gh¢) 2010-2019

In 2019, the NDMW was fixed at Gh¢10.65. This amount is a 10% (Gh¢0.97) increment over that of the year 2018. On the other hand, the base pay was fixed at Gh¢9.10 in 2019. This is an indication of a 10% (Ghp0.83) increment over the previous year. In 2020, NDMW was Gh¢11.82 representing 11% (Gh¢1.17) increase over that of 2019. On the other hand, the base pay was fixed at Gh¢10.19 in 2020, indicating a 12% (Gh¢1.09) increase in relation to that of 2019. (See Figure 1)

By and large, both the base pay and the NDMW have seen a steady increase over the years. (See Appendix 1)

#### **Fair Wages and Salaries Commission (FWSC)**

The last batch of Public Service employees who were migrated onto the Single Spine Salary Structure (SSSS) in 2013 was 1,866. Subsequently, there hasn't been any institution migrated onto the SSSS. Thus, a total of 139 Institutions with 480,436 employees have been migrated onto the SSSS.

As at December 2019, an estimated 528,067 number of Public Service employees were on the SSSS. This number represents 219,600 (41.59%) females and 308,467 (58.41%) males.

**Figure 2: Migration of Institution onto the SSSS (2010 to date)**

In 2019, the FWSC migrated a total of 528,067 Public Service employees onto the SSSS, out of which, 308,467 (58.41%) were males whereas 219,600 (41.49%) were females.

Compared to 2018, the number migrated in 2019 decreased by 54,026 (9.28%). This decrease in Public Service employees represents 33,303 (57.6%) males and 20,723 (42.4%) females.

**Figure 3: Estimated number of Public Service employees on the SSSS as at December 2019**

## 6.2 Labour Inspections and Employment Registration

### *Labour Department (LD)*

#### *Labour Inspections*

In 2019, the Labour Department undertook 202 labour inspections relative to 284 in 2018, 351 in 2017 and 305 in 2016. The 2019 figure represents a decline by 28.9% over that of 2018 and the lowest across the four years under review. The Greater Accra Region had the highest number of inspections with 89 in 2019 representing 44% covering 4,584 males and 2,351 females followed by the Brong Ahafo Region with 31 inspections representing 15% comprising 413 males and 194 females being inspected. Ashanti and Central Regions did not undertake any labour inspections during 2019.

Figure 4: Labour Inspections by Region

### **Employment Services by Public Employment Centres (PECs)**

#### *Employment Data*

The Public Employment Centre of the Labour Department in 2019 registered a total of 4,629 (3,877 males and 752 females) jobseekers as compared to 18,475 (10,552 males and 7,923 females) in 2018, 20,375 (12,068 males and 8,306 females) in 2017. This represents a decrease by 75.2% and 77.5% relative to 2018 and 2017 respectively. The Ashanti Region witnessed the highest number of jobseekers (2,237) representing 48.74% while the Upper East and Upper West Regions registered the least (50 each) job seekers representing 0.65% each. Out of the total 4,590 jobseekers registered, 2,485 were successfully placed in jobs representing 45.9% with the remaining 979 jobseekers on the live register.

**Table 2: Registration, Placement and Live Register (Unemployed)**

| Region        | Registration of Jobseekers |               |              |              |              |            | Job Placements |              |              |            |            |            | Live Register (unemployed) |              |            |              |              |            |

### ***Vacancy Notifications by Employment Sector***

Four thousand and nineteen (4,019) job vacancies in aggregate were notified in 2019 by various sectors of the economy thus Private Employers, Public Corporations, Central Government and Local Authority. The 2019 vacancies reported represent an increase of 43%, 59.7% and 22.05% over that of 2018, 2017 and 2016 respectively. The data also indicates that, in 2019, Private Employers (3,073) reported the highest vacancies followed by Public Corporation (862) and Central Government (84). There were no vacancies reported by Local Authority in the year under consideration. *(See table 3)*

### ***Vacancy Notifications by Regions and Industry***

During the year under review, the total number of job vacancies received from the various industries nationwide was 4,019. The number of job vacancies notified in 2019 increased by 42.62%, 63%, 22% relative to 2018, 2017 and 2016 respectively. Out of the total vacancies reported, Mining and Quarrying presented the highest number of notification (2,036), followed by Agriculture, Hunting, Forestry and Fishing (840), Community, Social and Personal Services (424), Manufacturing (288), Wholesale and Retail Trade, Restaurant and Hotels (244), Construction (88), Finance, Insurance, Real Estate and Business Services (47) Transport, Storage and Communication (27) , Electricity, Gas and Water (16) and Activities not Adequately Defined (9).

Regionally, the Ashanti Region reported the highest number of vacancies with percentage of 70% in 2019 representing more than half of the vacancies notified. This was followed by Brong Ahafo and Greater Accra Regions with 8% each. The Upper East and Upper West Regions did not report any job vacancies in the year under review. *(See table 4)*

### ***Regional Distribution of Live Register (Unemployment) by Age groups***

The year 2019 saw the Labour Department recording 689 jobseekers on the live register (registered unemployed). This is disaggregated into age and gender groups as follows: 4 (3 male and 1 female ) fell within the age group of 15-19 years, 196 (144 males and 52 females) within the age range of 20-24 years, 416 (331 male and 85 females) in the age range of 25- 44 years denoting the highest registered unemployed in the year, 71 (52 males and 19 females) in the age bracket of 45-54, the age bracket of 55-59 registered only 2 males and, 60 and above age range did not witness any registration. The number on the live register for the year under review dropped greatly compared to the previous year's figures. The Central Region had the highest live register of 214 with 211 males and 3 females followed by Ashanti and Brong Ahafo Regions with 120 (males 60 and females 60) and 87 (males 53 and females 34) respectively. The Upper East and Upper West Regions registered the least of 8 each on the live register with 5 males and 3 females for Upper East Region and 5 males and 3 females for Upper West Region. (See Appendix 2)

### ***Registered Private Employment Agencies (PEA) by Region***

During the year under review, the Labour Department registered 57 Private Employment Agencies (PEAs) representing a decline by 29.63% relative to 2018 but an increase by 46.15%, 11.76% and 7.56% compared to 2017, 2016 and 2015 respectively.

Regionally, the Greater Accra Region had the highest number of registered PEAs with a percentage of 70.18%. Next to the Greater Accra Region was Western Region and Ashanti Regions with 19.30% and 5.26% respectively. The Eastern, Volta and Northern Regions all had 1.75% of registered PEAs with Central, Brong Ahafo, Upper East and Upper West Regions not registering any PEAs.

Figure 5: Registered Private Employment Agencies (PEA) by Region

### Workplace Disputes

Workplace complaints/disputes received by the Labour Department in 2019 was 490. Out of this number, 253 cases were resolved constituting 48.37%. Six (6) cases were referred while 231 disputes/complaints are outstanding.

Greater Accra Region had the most cases of 289 with 115 resolved and 174 outstanding. The Central Region had all its 55 cases resolved. The Ashanti, Eastern, Northern, Brong Ahafo and Upper East Regions received 53, 44, 33, 14, 2 workplace complaints/disputes resolving 34, 28, 8, 12, and 1 respectively. The Western, Volta and Upper West Regions did not record any complains/disputes. (See Appendix 3)

### Child Labour

By region, the Labour Department had a total of 33 Child Labour cases in 2019. According to data available, this is the lowest number of cases since 2014. Relative to 2014, 2015 and 2016, the 2019 cases indicate a decrease by 96.6%, 99.1%, 99.3% respectively. During the year under review, all child labour cases were reported in only 3 regions: Ashanti, Western and Volta regions. The highest number of cases was in the Ashanti region, followed by Volta region (10) with Western region recording the least (7). All the children under child labour in the review year were rescued. (See Appendix 4)

By sector, out of the 33 child labour cases reported, the Cocoa sector had the highest number of cases (16) followed by the Fishing sector with 10 cases and 7 in the Mining and Quarrying sector. (See Appendix 5)

### ***Workplace Accidents and Reported Claims***

The number of work accidents reported to the Labour Department in the year under consideration was 961. This represents an increase of 532 over that of 2017 but a decrease of 1,736 in 2015 and 135 in 2016. The Greater Accra region had the highest number (688) while the Upper East region had the least (4). There were no cases in the Brong Ahafo and Northern regions. (See Appendix 6)

By nature of accidents, 21 were fatal and 940 were non-fatal out of 961 total cases. The Greater Accra Region had 688 workplace accidents and reported claims representing 71.59% followed by Volta, Upper West and Ashanti Regions with 98, 66 and 46 representing 10.20%, 6.87% and 4.78% respectively. (See Appendix 7)

### ***Workplace Injuries and Compensation Paid***

The data indicates that eight hundred and ninety-one (891) work injuries were reported in 2019 comprising 69 in the public sector and 822 in the private sector, an increase of 462 cases over the 2017 figure but a decline of 206 cases in 2016 and 1,806 cases in 2015. Out of the reported work injuries in the year under review, 444 were resolved with 4,300 yet to be resolved. An amount of Gh¢5,084,689.61 was paid to affected workers as compensation. (See Appendix 8)

### ***Labour Clearance Certificates***

A total of 8211 labour clearance certificate were issued by the Labour Department nationwide in the year under consideration. Comparatively, this is the highest number of labour clearance certificates issued over the last five (5) years. The number of clearance certificates issued by the Greater Accra Regional Labour office/Head Office constituted 75.12%. This was followed by the Northern, Upper West, Eastern and Central Regions with 15.05%, 5.85%, 3.37% and 0.61% respectively. The Western, Ashanti, Brong Ahafo, Volta and Upper East Regions did not issue labour clearance certificate in the year under review.

Figure 6: Labour Clearance Certificates issued

### 6.3 Occupational Safety and Health (OSH)

#### *Department of Factories Inspectorate (DFI)*

##### *Registration of New Premises by Region*

In 2019, the Department of Factories Inspectorate recorded a total of 521 new premises nationally. Thus, a decrease of about 8.0% over 2018 but 13.8% increase over 2017. Data available shows that the Greater Accra Region has consistently had the highest registration of new premises over the years and 2019 was not an exception. The region had 116 new premises representing 22.3% of the total. All the Regions had a decline in the number of registrations in 2019 relative to 2018 with the Brong Ahafo and the Ashanti Regions recording the highest of 63.4% and 52.0% respectively while the Eastern Region had the least of 8.0%.

**Figure 7: Registration of New Premises by Location**

### ***Registration of New Premises by Industry***

The Oil & Gas industry had the highest of 235 representing 45.1% of the total figure registered nationwide. The data further shows that across various industries, the Oil & Gas has consistently topped the number of registered premises. In relation to 2018, the Oil & Gas industry registered about 43.4% less. The number of Food Processing companies registered in 2019 increased more than proportionately, from 1 in 2018 to 15 in 2019. The Offices/Shops industry also had a decline by 65.4% in terms of the number of registrations during the year under review. The Plastics/Rubbers industry which had one of the least in 2018, was the second highest (68) representing over 500% increase in the number of new registrations in 2019. The Mineral/sachet water industry which also had one of the lowest in 2018, had over 200% increase in 2019. Whereas Distilleries which has no record over the years had 5. Industries such as the Ports and Docks, Breweries and Meat products had no new premises. It is significant to note that whereas some of the industries had a decline in the number registered in 2018, most of them also had a tremendous increase of over 100% over the period under consideration. (See Appendix 9)

### ***Routine Inspection of Registered Workplaces***

A total of 2,936 premises were visited nationally for inspection during the year under review. This shows that the Department visited 789 (36.7%) more premises in 2019 than in 2018 and 820 (38.8%) more than 2017. Out of the 2,936 inspections conducted in 2019, the majority were within the Greater Accra Region (17.5%), with Brong Ahafo Region recording the least (9.7%). Again, the records show that the number of premises inspected has been increasing

consistently in the Greater Accra Region since the year 2015. Also, compared to 2018, the number of inspections conducted in the Central/Western Regions and the Eastern/Volta Regions increased by more than 100% in 2019 with the Central/Western Regions recording the highest increment. On the contrary, the Brong Ahafo Region (1.0%) and the Northern/Upper East/Upper West Regions (14.4%) had a decline in the number of inspections conducted during the year under study relative to 2018.

**Figure 8: Routine Inspection of Registered Workplaces by Region**

### ***Routine Inspection by Industry***

The data gathered shows that the year 2019 saw an increase of 36.7% in the number of inspections conducted. Thus, a total of 2,936 inspections were conducted in the year 2019. Out of this, the Oil & Gas industry had the highest (906) representing 30.8%. The Mineral/Sachet Water Production industry had the second highest number of inspections (261), followed by other Miscellaneous industries (244). Consistently, the data shows that the Oil & Gas industry has been recording the highest number of inspections since 2014. The Ports & Docks and Breweries had the least with 0.2%. The records show that more than 50% of the industries available had an increase in the number of inspections within the review year compared to the previous year with the highest being the Meat Products industry (366.7%). Meanwhile, few industries such as the Saw Milling, Furniture, Distilleries, among others had a drop in the number of inspections conducted during the year under review. (See Appendix 10)

### Severity of Reported Occupational Accidents

During the year under review, the Department recorded a total of 41 occupational accidents. Out of the total, 4 (9.7%) were fatal and 37 (90.2%) non-fatal. The number of fatal cases in 2019 declined by 20% compared to 2018. Most of the people involved in the fatal accidents were within the age ranges of 15-24 and 25-34 years respectively, thus 50% each of the total fatal cases reported. Also, no fatal cases for the age ranges of 35-44, 45-54 and 55+ years.

In spite of the consistent reduction in the number of reported non-fatal accident cases over the years, the review year had an increase of 6 representing 19.4% of the total. About 40.5% of persons affected by non-fatal accidents were between the ages of 15 - 24 years, thus, an increase of about 400% over that of 2018. Additionally, there were 2 (5.4%) persons aged 55 years and above involved in non-fatal accidents. Between the ages of 25-34 and 35-44, there were 9 (24.3%) and 7 (18.9%) non-fatal cases respectively. The number of non-fatal cases for those within the age brackets 35-44 and 45-54 fell by 22.2% and 60% respectively.

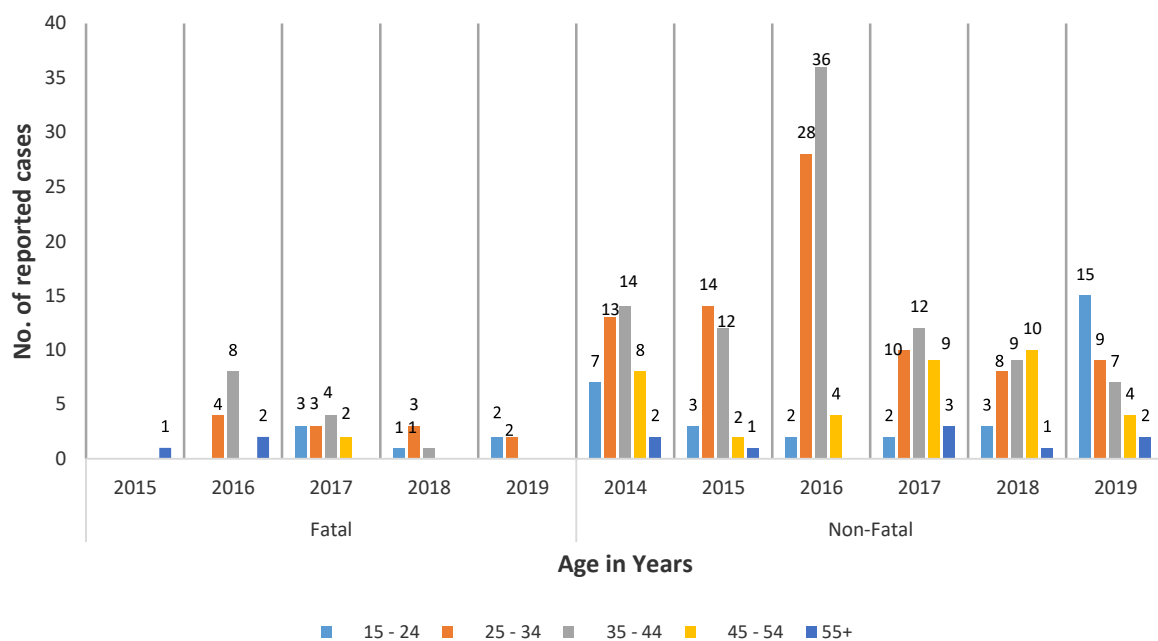

Figure 9: Severity of Reported Occupational Accidents by Age Group

### Reported Occupational Accidents by Sex

During the year under review there were 21 (51.2%) males and 20 (48.7%) females involved in various types of accidents across the country. The number of males involved in 2019 were 4 (16%) less than that of 2018. Per the data gathered, the year under review has so far seen the least number of males involved in accidents. About 57.1% of the males involved in the accidents fell within the age range 15-24 years. There were no accident cases for persons

within the age brackets of 25-34, 35-44, 45-54 and, 55 years and above. Females who were involved in accidents during the review year were 7 comprising 35% of the total and were within the ages of 35-44 years, while 5 (12.1%) were also within the ages of 35-44 years. Generally, the number of accident cases for females increased by 81.8% compared to 2018.

**Table 5: Reported Occupational Accidents by Sex**

| Age in Years   | Male      |           |           |           |           |           | Female   |          |           |          |           |           |

### ***Industry Classification of Reported Occupational Accidents***

In the review year, there was a total of 41 occupational accidents, out of which 37 accidents were non-fatal and 4 were fatal accidents. Most of the non-fatal accidents (13) occurred within the Iron, Steel and other Metal rolling companies representing 35.1% of the total non-fatal accidents. This was followed by other miscellaneous industries (9) representing 24.3%. Few cases happened in the Rubber trades (7) and Textiles printing, Bleaching and dyeing as well as Packaging (2 each) representing 18.9%, 5.4%, 5.4% respectively. Most of fatal accidents were in Other miscellaneous industries (3) representing 75% of the total with the Construction industry recording 1 case representing 25%.

**Table 6: Industry Classification of Reported Occupational Accidents**

| TYPE OF INDUSTRY                          | Severity of Accidents |           |           |           |           |           |          |          |           |           |          |          |
|---|-----------------------|-----------|-----------|-----------|-----------|-----------|----------|----------|-----------|-----------|----------|----------|
|   | Non-Fatal             |           |           |           |           |           | Fatal    |          |           |           |          |          |
|   | 2014                  | 2015      | 2016      | 2017      | 2018      | 2019      | 2014     | 2015     | 2016      | 2017      | 2018     | 2019     |

### ***Causes of Reported Occupational Accidents***

A total of 37 non-fatal accidents occurred in the year 2019. Most of these causes were classified as Miscellaneous (27.0%). Lifting Machinery and Explosions also contributed 10.8% of the causes. Other causes such as Explosions, Persons Falling, and Other Power Driven contributed 19.4% to the total cases. Electricity accounted for 3 (75%) of the total fatal accidents that occurred during the review year. One cause of reported accidents was classified as Miscellaneous. (See Appendix 11)

### ***Investigation of Reported Occupational Accidents***

Out of the 41 accidents that occurred during the year under review, the data revealed that Burns accounted for majority investigated, 11 (26.8%). Laceration of arm, wound (cut), and

others accounted for 5 (12.1%) each whereas Lacerated finger, Contusion, Dislocation and Electrocuting also contributing 3 (7.3%) to the total investigated cases. Wound (cut) which accounted for the highest number of cases investigated in 2018 reduced by 37.5% in 2019. Trapping & Severing of Left arm, Sprain on thigh, hip bone & Pelvis and Fracture accounted for a case each. Whereas the number of cases investigated for Burns increased by about 175%, no investigations were conducted in relation to Laceration of top of head & jaw, Crush injury of finger, and Laceration.

**Table 7: Investigation of Occupational Reported Accidents**

| <b>Type of Accidents</b>            | <b>2014</b> | <b>2015</b> | <b>2016</b> | <b>2017</b> | <b>2018</b> | <b>2019</b> |

In general, 2019 witnessed 41 reported accidents, out of which 38 accidents were investigated constituting 92.68%. Over the years, from 2014 to 2019, the number of cases reported and those investigated have been oscillating. The year 2014 had 44 reported accident cases and the number of cases investigated amounted to 97.72%. Also, in 2015, 2016, 2017 and 2018 the reported accident cases were 33, 84, 48, and 64 respectively. Out of the cases reported, 87.87% in 2015, 82.14% in 2016, 93.75% in 2017 and 81.25 % in 2018 were investigated. Overall, an appreciable number of cases reported were investigated.

**Figure 10: Investigated and Reported Accidents**

### *OSH Talks and Training*

Nationally, the Department organised a total number of 91 OSH talks which accounted for 89.6%, an improvement over the year 2018. The highest number of OSH talks were in the Tema Metropolis 26 (29%). The Greater Accra Region had 18 (19.8%) being the second highest while the Eastern/Volta Regions and the Ashanti Region had 16 (17.6%) and 8 (8.8%) respectively. The Brong Ahafo Region had the least (4).

**Figure 11: OSH Talks and Training by Region**

### *OSH Talks and Training by Industry*

The Oil and Gas industry received 38 out of the total number of 91 OSH talks organised in the year under review. This is followed by the Water industry (16), Plastics/Rubber industry (10), Food Processing industry (8) and the least (1) by the Auto/Transport industry. The Oil & Gas industry has consistently received the highest number of OSH talks since 2014.

## **6.4** Employment Creation

### *Department of Co-Operatives (DOC)*

#### *Registered Co-operatives (Cumulative)*

As at 2019, the Department of Co-operatives had registered a total of 15,707 Co-operatives. Out of the 15,707 Co-operatives registered, 9,993 representing 63.6% are still active and operational. The Agricultural Co-operatives registered the largest number of co-operatives (11,065) representing 70% of the total number of registered co-operatives, with 7,527 (68%) being active. The Service Co-operatives registered the least (825) representing 5.2% of the total with 618 (74.9%) being active.

**Figure 12: Cumulative Number of Registered and Active Co-operatives by Sector**

### *Newly Registered Co-operatives*

In the year under review, 3,676 new co-operatives were registered. Out of this number, Agricultural Co-operatives registered the highest number of new co-operatives (3601) representing 97.9%, followed by Financial Co-operatives (28) indicating 0.76% of the total.

Service Co-operative registered 26 new co-operatives representing 0.7% with Industrial Co-operatives registering the least (21) representing 0.57% of the total. Overall, newly registered co-operatives in 2019 accounted for 585% and 739% increase over 2018 and 2017 respectively.

**Figure 13: Newly Registered Co-operatives by Sector**

### ***Registered Co-operatives by Region***

Cumulatively, the Department had the highest number of Co-operatives relative to the previous years with a total of 15,707. Out of this, the Agricultural sector Co-operatives accounted for the highest representing 43.9% while the Industrial Sector registered the least (1.2%) of the total. The year 2019 saw a general increase in the number of new registrations across all sectors of the Co-operative Societies with the Agricultural Sector increasing more than twice compared to 2018.

The Agricultural sector had a total of 5,942 registered Co-operatives in 2019, indicating an increment of more than twice the previous year (2018). Whereas the Ashanti Region had the highest number (1,396) constituting 23% of the total, the Volta Region had the lowest percentage (0.94%) with a total of 56 registered Co-operatives.

The Services sector, as of 2019, registered a total number of 178 Co-operatives. Out of this, the Greater Accra Region had the highest number (80) representing 44.9% with the Western Region recording the least (3), representing 1.68% of the total.

During the year under review, there were 473 new Financial Co-operatives registered as against 445 in 2018. Out of the number registered in 2019, the Ashanti Region had the highest with 112 representing 23.6% of the total. The Eastern Region had the second highest with a total of 81 representing 17.1%. The Upper West Region had the lowest number (9) constituting 1.9% of the total with no increase relative to 2018.

In 2019, the Industrial Co-operatives had a total of 160 new registrations constituting an increase of 15.1% as compared to 2018. The Upper West, Brong Ahafo and Greater Accra Regions had no increase as compared to that of 2018. The Brong Ahafo Region had the least (1) constituting 0.62% of the total number. The number of new Industrial Co-operatives registered in the Upper East Region during the review year more than quadrupled relative to 2018.

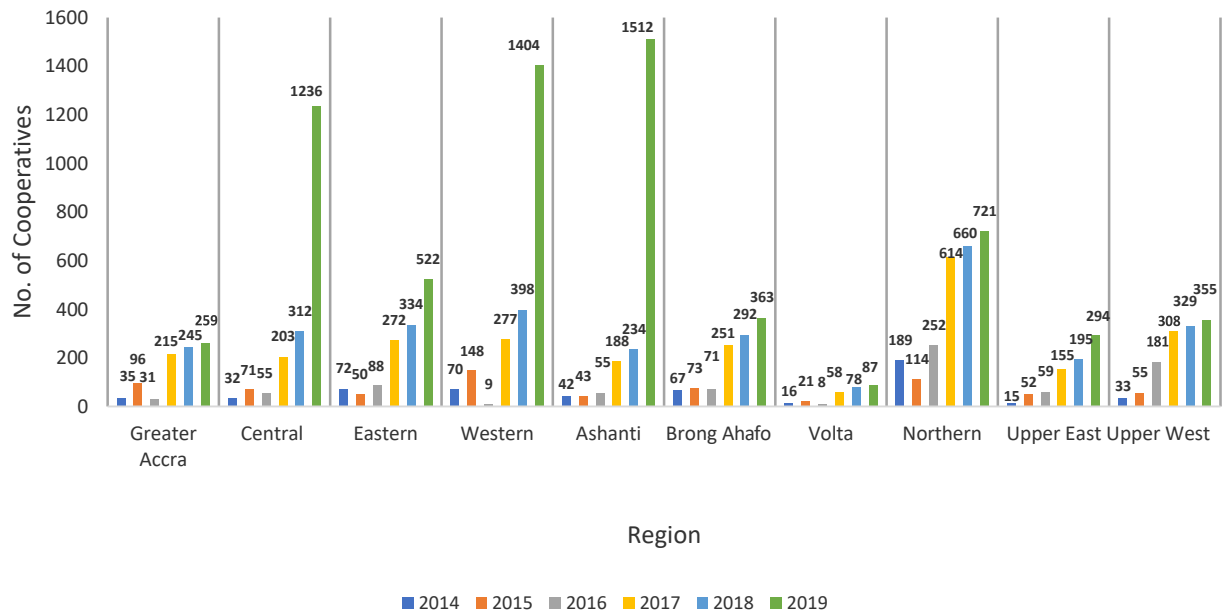

Figure 14: Registered Co-operatives (Cumulative) by Region

### Registered Co-operatives by Region and Sector

In terms of sectors, the Agricultural sector had the highest number with a total of 3,601 Agricultural Co-operatives. The Ashanti Region had the highest (1,261) constituting 35.0% of the total number. On the other hand, the Western Region had 1,001 constituting a 27.7% of the total. Followed by the Central, Eastern, Upper East and Northern Regions with 916, 187, 79, and 54 respectively.

In 2019, the Service Co-operatives registered a total of 26. Out of 26 Co-operatives, Greater Accra Region had 7 amounting to a percentage of 26.9% of the total number registered. The Northern and Upper West Regions followed with a total number of 5 each. Eastern, Western and Brong Ahafo Regions had none.

Financial Co-operatives had a total of 28 indicating a 42.4% decrease as compared to 2018. A total of 14 was in the Ashanti Region, contributing 50% of the total. While the Greater Accra, Central, Western, Brong Ahafo and Eastern Regions had 4, 3, 3, 3 and 1 with percentages of 14.28%, 10.71% and 3.57% respectively.

Industrial Co-operatives had 21 new Co-operatives registered, with 15 in the Upper West Region contributing 71.42% of the total. The Central, Western and Northern Regions followed with 2 (9.52%) each. (*See table 9*)

### ***Inspection/Auditing of Co-operative Societies***

The Department conducted a total of 1,159 inspections/auditing of Co-operative Societies. Out of the total, Financial Co-operatives had the highest number with a total of 478 (41.24%), followed by the Agricultural Co-operatives contributing 317 (27.3%), then the Industrial Co-operatives 209 (18.0%) with Services Co-operatives 155 (13.3%) as the least. (*See table 10*)

Cumulatively, there were a total of 5,018 Inspection/Auditing of Co-operatives Societies by the Department in the year 2019. Out of the total of 5,018, the Agricultural Sector had 1,623 (32.3%) with the Eastern Region recording the highest 355 (21.87%) in the sector. However, the Volta Region had the lowest with 45 constituting 2.77%.

The Services Co-operatives, Financial Co-operatives and Industrial Co-operatives had 574 (11.43%), 2,115 (42.14%) and 706 (14.0%) respectively. (*See table 11*)

### ***Number of People Employed by Co-operatives***

In the review year, 7,436 people were employed by Co-operative Societies. Out of the total, the Agricultural Sector had the highest with 7,207 constituting 96.9% of the total. The Financial Sector followed with a total of 140 constituting 1.88% while the Services Co-operatives and Industrial Sector had 52 (0.69%) and 42 (0.56%) respectively.

Analysing the data by Regions revealed that the Ashanti Region employed the highest number 2,598 contributing to 34.9% of the total while the Volta Region employed the least with a total of 18 representing 0.24%. (See table 14)

Cumulatively, the Co-operative Societies employed 14,845 people from 2014-2019. Out of the total, 8,686 representing 58.5% were employed in Agricultural Co-operatives, 245 representing 1.6% by the Services Co-operatives, 5,490 representing 37.0% by the Financial Co-operatives and 404 representing 2.7% by the Industrial Co-operatives. The highest number of recruitments was in the Ashanti Region with a total of 3,838 representing 25.8%. Upper West Region had the least with 299 representing 2.0% of the total. (See table 15)

### *Groups Organised into Co-operatives*

In the year 2019, 3,676 new groups were organised into Co-operative Societies. Relative to 2018, the total number of newly registered Co-operatives across the country increased more than five times, with the Ashanti and the Western Regions recording the highest with 1,278 (34.7%) and 1,006 (27.3%) respectively. The Greater Accra and Volta Regions had the lowest with 14 (0.4%) and 9 (0.2%) respectively. Compared to the figure in 2018, the Greater Accra Region had a decrease of 83.1%.

Cumulatively, there are 7,197 groups organised into Co-operatives across the ten regions of the country. Out of this number, the Ashanti Region had the highest with 1,606 constituting 22.3% of the total. Next to the Ashanti Region is the Western and Central Regions accounting for 19.3% and 17.3% respectively. Out of the groups organised into Co-operative societies, the Upper West and Northern Regions had the least with 4.3% and 4.4% respectively in 2019. Additionally, the number of groups organised in the Ashanti and the Western Regions increased hugely in the review year relative to 2018. The 2019 figure increased about five times compared to 2018 while that of the Western Region almost quadrupled. Meanwhile, the Greater Accra Region had an increase of 3.8% over the same period.

**Figure 15: New Groups organised into Co-operatives**

As at December 2019, the Volta Region had the highest cumulative figure of groups organised into co-operatives accounting for 604 of the total followed by the Eastern and Western Regions with 399 and 382 of the total respectively. The Upper East and Northern Regions had the lowest with 248 and 258 respectively in 2019.

Figure 16: Organised Groups into Co-operatives (Cumulative)

### Organised Training in Bookkeeping

New trainings organised in bookkeeping increased from 533 in 2018 to 802 in 2019 representing 50.5% increase. The Upper East and the Eastern Regions saw a significant increase recording more than 200% increase in the number of trainings organised. Other Regions such as Volta, Northern and the Brong Ahafo Regions also had more than 100% increase in bookkeeping training. However, the Western, Central and the Upper West Regions had a decline in the number of trainings for the review year relative to 2018.

Figure 17: Training in Bookkeeping by Region

Cumulatively, 2,633 groups participated in bookkeeping training organised across the country in 2019. The Western Region had the highest participation representing 20% of the total. As with the previous year, Volta Region had the lowest participation representing 4% of the total in the year under review. Greater Accra, Central, Upper East and Upper West Regions had 9% each of the total participation. Brong Ahafo and Northern Regions had 8% each of the total participation while Eastern Region had 10%. On the whole, all the regions had an increase in participation compared to 2018.

Figure 18: Training in Bookkeeping by Region (Cumulative)

### Capital Base of Co-operative Societies

The Capital Base of Co-operatives increased by Gh¢9,609,500.00 in 2019. This was an increase of about 300 percent over the previous year.

Agricultural Co-operative contributed the highest with 93.7% of the capital base while Industrial had the least with 0.2% of the total. (See table 16)

Cumulatively, the Financial Co-operative sector contributed the highest to the capital base of the co-operative sector accounting for 96.8% of the total (Gh¢559, 863, 195.00) while the Service and Industrial Co-operatives contributed 0.2% and 0.5% respectively. (See table 17)

**Table 16: Capital Base of Co-operative Societies by Sector**

## 6.5 Skills Training and Development

### *National Vocational Training Institute (NVTI)*

#### *Master Craft Persons*

In 2019, the NVTI registered a total of 6,345 Master Craft Persons (MCP) relative to 4,400 in 2018. This represents an increase by 44.2%. Cookery registered the highest MCPs (1090) representing 17.2% while Carpentry had the least (45) representing 0.8% of the total. With the exception of Carpentry and Motor Vehicle Mechanic, all the Trades saw an increase in the number of registered MCPs in 2019 relative to 2018. Out of the total MCPs, 1,618 MCPs were mobilized for proficiency test. This indicates 24.8% decrease from the previous year (2,152). Masonry had the highest MCPs -- 272 (16.8%) mobilized for proficiency test while Draughtsmanship had the least MCPs -- 45 (2.7%). Out of 1,618 MCPs, 1,250 were accredited. The total number of accreditations increased by 7% in 2014 but decreased by 3% and 41% in 2016 and 2017 respectively. During the year under review, total accreditation increased by 86% relative to 2018. Hairdressers registered the highest number of accreditations (225) representing 18% while Carpentry had the least (35) representing 2.8% of the total number of accreditation. Less monitoring was conducted in 2019 compared to 2018. Seven hundred and eighty-five (785) artisans were monitored compared to 850 in 2018 implying a 7.6% decrease. Cookery and Hairdressing were most monitored, representing 12.5% each while Carpentry was the least monitored trade, representing 2.5%. Relative to 2018, Masonry, General Electricals, Auto Electricals, Auto Bodyworks/Welding and Cookery saw an increase in MCPs registered, mobilized for proficiency test as well as accreditation. (See table 18)

#### *Training Provided*

There was a decrease in the number of trainees enrolled by the NVTI in 2019 (2,862) as compared to 3,658 in 2018 representing a 21.8% decline. Cookery (272), Dressingmaking

(491), Gen.Electricals (837), Masonry (322), and Motor Vehicle Mechanics (199) had high enrolment figures during the year under review but low enrolment compared to 2018. Just as 2018, no trainee enrolled in General Agric and Hairdressing in 2019. As compared with 2018, all the trades had a fall in number of trainees except Carpentry and Joinery, Leather works and Secretarial. Overall, the total trainee population of the various Trades decreased from 11,892 in 2018 to 11,221 in 2019. Most of the trainee population were in Cookery, Dressmaking, Gen. Electricals and Masonry trades. (*See table 19*)

**Table 18: Master Crafts Persons Registered, Trained, Accredited and Monitored**

| Trade                     | Registered   |              |              |              |              | Mobilized for Proficiency Test |              |              |              |              | Accredited   |              |              |            |              | Monitored    |            |            |            |            |

### ***Short Courses***

A total of six (6) short courses were organised for 135 trainees in 2019. The number of trainees decreased relative to 312 in 2018. This depicts 56.7% decrease in total enrolment as compared to a 21.0% decrease in 2018. Most of the trainees (45) enrolled in MCPs Skill Upgrading representing 33.3% of the total enrolment while no trainee enrolled in the Affiliated Trainee Certified course. At the end of the various training programs, all the trainees graduated, representing 100% graduation success.

### *Apprenticeship*

The number of apprentices registered by NVTI declined from 6,840 in 2018 to 4,425 in 2019 representing 35.3% decrease. Out of the total registered apprentices in 2019, Traditional Caterers (645) constitute the highest number of apprentices registered representing 14.6% while Draughtmanship (53) had the lowest representing 1.2%. Out of the total registered, 785 apprentices were monitored. Traditional Caterers and Hairdressing were the most monitored (12.5%) while Carpentry was the least monitored (2.5%).

**Table 21: Apprentice Registered and Monitored**

### ***Instructional Staff***

Two hundred and thirty-three (233) males and ninety-nine (99) females made up the 332 NVTI Staff strength in 2019. The Staff Strength increased by 4% and 5% relative to 2017 and 2018 respectively. Building/Masonry, Dressmaking, and Gen. Electricals/ Installation had 42, 43 and 40 instructors respectively. Garment and Textiles, Leather works and Maintenance Fitting, Motor Vehicle Electricals had one instructor each. At the end of 2019, Hairdressing, General Agric, Spraying/Painting, and Stenographers/typist had no instructors.

Comparing the Staff strength to the required number of staff needed by the NVTI to operate effectively, the latter has continuously fallen short of the former. In 2017, 2018 and 2019, the staff strength fell short of the ideal staff strength by 56%, 56% and 42% respectively. The staff strength has predominantly been dominated by males over the years. The Carpentry, Garment and Textiles and Leather works trades had the required number of staff in 2019. The staff strength of Gen. Electricals/Installations fell short by 70.8% compared to 2018. Weaving experienced 33.3% increase in staff relative to 2018 and exceeded their ideal staff strength by more than 100%. With the exception of Science, the staff strength of all the generic courses increased in 2019 relative to 2018. Although all the generic courses registered increase in staff strength (except Science), none of the courses met the ideal staff strength. (*See table 22*)

**Table 22: Current vs. Ideal Instructional Staff Strength of NVTI by Trades**

| Trade                         | Staff Strength |            |            |            |            | Ideal Staff Strength |            |            |            |            | Variance   |             |             |             |             |
|-------------------------------|----------------|------------|------------|------------|------------|----------------------|------------|------------|------------|------------|------------|-------------|-------------|-------------|-------------|
|                               | 2015           | 2016       | 2017       | 2018       | 2019       | 2015                 | 2016       | 2017       | 2018       | 2019       | 2015       | 2016        | 2017        | 2018        | 2019        |

## ***Integrated Community Centres for Employable Skills***

### ***Trainee Population***

The Integrated Community Centres for Employable Skills (ICES) enrolled 1,551 (806 males and 747 females) trainees in 2019 bringing the total student population to 3,459 as compared to 1,592 (1527 males and 67 females) enrolment in 2018 and 1,438 enrolment in 2017. The 2019 enrolment declined marginally by 2.58% and increased by 7.86% in 2018 and 2017 respectively. Out of the 1,551 trainees enrolled, 195 (69 males and 283 females) exited early and 835 (552 males and 283 females) graduated. Comparatively, the number of early exiters increased in the year under review to that of the previous years. The year 2019 saw Fashion (Dressmaking and Tailoring) recording the highest enrolment of 552 representing 35.59% of the total enrolment followed by Electrical installation and Building construction (masonry, blockwork and concreting) with 446 and 222 representing 28.76% and 14.31% respectively. Painting and Decoration had the lowest enrolment (2) representing 0.13%. (See table 23)

### ***Training in Short Courses***

The year under consideration saw 2,221 trainees made up of 867 males and 1,354 females enrolling for short courses in varied trades. The 2019 enrolment figure represents an increase of 832 and 1,998 over the 2018 and 2017 enrolment respectively. Out of the 2,221 enrolled students, 66 comprising 27 Males and 39 Females exited early with 2,155 made up of 840 Males and 1,315 Females graduating. The Entrepreneurial skills/Financial Literacy (YIEDIE) had the highest enrolment (2,095) comprising 867 Males and 1,228 Females. This is followed by Detergents Making (soap/pomade/powder) with 54 Female students and Beads, Ceramics & Pottery with 50 Female students. With the exception of the Entrepreneurial/Financial Literacy course, all the other courses had only female trainees. No trainee pursued Hairdressing courses. (See table 24)

### ***Academic Progression***

Based on data provided by ICCES, more males generally are able to progress to tertiary institutions than females. The number of trainees of the institute who progressed to tertiary institutions increased by 91.6% relative to 2018 thus from 34 (20 males and 14 females) in 2018 to 65 (40 males and 25 females) in 2019. Comparing 2019 academic progression with 2017, 65 students progressed to tertiary institutions in 2019 while 69 (34 males and 35 females) progressed in 2017 representing a decline of 5.8% (4 students). Overall, 35 trainees progressed to polytechnic/technical universities and 30 trainees went to universities in 2019.

**Figure 19: Academic Progression**

### ***Post Training Employment by Industry***

In total, the number of trainees employed by industry was 366. This denotes an increase by 279 and 315 relative to 2018 and 2017 respectively. This shows an appreciable increase in the number of trainees employed by industry. The Industrial/Manufacturing sector had the highest number of trainees employed accounting for 68.3% (171 males and 75 females) followed by the Service sector with 37 males and 63 females. The Agricultural and Financial sector had the lowest of 15 (all males) and 5 (2 males with 3 females) respectively in 2019.

**Figure 20: Post Training Employment by Industry**

### *Post Training Employment by Sector*

Data available shows that the Informal sector has been dominating the Formal sector since 2017, and 2019 is no exception. In 2019, the Formal sector employed 17 (11 males and 6 females) trainees as compared to 4 (3 males and 1 female) and 2 (1 male and 1 female) in 2018 and 2017 respectively. The Informal sector employed 380 (139 males and 241 females) trainees in 2019 relative to 108 (42 males and 66 females) and 66 (35 males and 31 females) in 2018 and 2017 respectively. Overall, 397 trainees were employed in 2019 as compared to 112 in 2018 and 68 in 2017.

**Figure 21: Post Training Employment by Sector**

### ***Attachments Undertaken by ICCES Trainees***

In 2019, the ICCES sent 1,152 trainees on attachment relative to 214 and 175 in 2018 and 2017 respectively. Out of the 1,152 trainees on attachment, 685 trainees were monitored as compared to 144 and 72 in 2018 and 2017. Electrical Installation led with 466 attachment trainees, out of which 283 were monitored. This was followed by Fashion (Dressmaking & Tailoring) with 259, Catering (Cookery) with 187 and Building Construction (Masonry) with 178 trainees on attachment. Out of these, 159 were monitored from Fashion, 83 from Catering and 135 from Building Construction. Auto Mechanics and Welding & Fabrication presented 9 and 18 trainees on attachment but were not monitored. Trades such as Agricultural Studies, Beads Ceramics & Pottery, Detergents making, Draughtsmanship, Electronics Studies and Repairs, Health Care Studies, Painting & Decoration, Secretarial Studies had no trainees on attachment.

### ***Instructional Staff***

The progress and success of every institution depends on the strength of its staff. The training institute over the years is challenged on the required number of staff that is needed to run the institution. In 2019, the ideal staff required was 526 but 331 was available leaving a deficit of 195. This trend is no exception to the past years. Out of the 677 staff needed in 2018, 307 were available leaving a huge shortage of 370 staff. Likewise, the staff requirement for 2017 was 454 but there was 368, leaving a variance of 86 to meet the ideal staff strength. In the year under review, trades such Carpentry & Joinery/Alum Fabr., Electronics Studies and Repairs, Fashion, Hairdressing and Health Care Studies had the required staff strength. Agricultural Studies, Beads Ceramics & Pottery, Detergents Making, Painting and Decoration and Textiles had no staff to run the courses.

### ***Opportunities Industrialization Centres, Ghana (OICG)***

#### ***Training Provided***

During the year under review, the OICG enrolled 1,475 fresh students as compared to 1,209 in 2018 representing an increase of 266 (22%). The total student population reduced from 1,979 in 2018 to 1,754 in 2019 representing a reduction of 11.4%. Electricals had the highest student population of 488 followed by Fashion Design (398), Catering and Hospitality (300) respectively. The data revealed that Hairdressing and Textiles Design had no student for the year under review. Programmes such as Electricals, Block Laying/Masonry, Fashion Design and Catering and Hospitality had the highest number of early-exiters constituting 5, 4, 4 and 3 respectively. Early-exiters fell from 57 in 2018 to 22 in 2019. The number of students who graduated during 2019 also dropped from 943 in 2018 to 849 in 2019.

In 2019, the OICG enrolled 1,475 (787 males and 688 females) bringing the total student population to 1,754 (944 males and 810 females). The data revealed that males constitute the majority representing 54% of the total. Although the highest number of early-exiters male students accounting for 86%, they were also the highest number of graduates accounting for 53%.

### ***Short Courses***

Under the Bread for the World (BfbW) project, 603 trainees enrolled in short courses offered by OICG in 2019. This figure represents an increase in enrolment by 297 and 197 over 2018 and 2017 respectively. Most of the trainees (200) were enrolled in the Fashion Design/Dressmaking course while 1 trainee each enrolled in Shoe/Sandal Making and Aluminium Fabrication courses. Like 2018, no trainee enrolled in Steel Bending, Batik, Tie & Dye, Soap Making and Bag & Accessories courses in 2019. In the year 2019, 2 new courses were introduced: Make-up Artistry and Plumbing. During the year under review, a total number of 790 student population was realized, indicating an increase of 484 and 224 over 2018 and 2017 respectively. Just like 2018, most of the student population (241) enrolled in the Fashion Design/Dressmaking course while Shoe/Sandal Making had the least (3) in 2019. Out of the total student population, 17 trainees exited early. Hairdressing had the highest number (9) of early-exiters while Fashion/Dress Making and Shoe/Sandal Making had the least (1 each). Also, aside Driving (2) and Decoration (4), no trainee exited early of a course. Three hundred and thirty-six (336) trainees graduated in 2019. (*See table 28*)

Overall, 315 female and 109 male trainees were admitted under the BfbW project in 2019. Electricals (30 males and 1 female) had the highest male enrolment while Shoe/Sandal Making and Aluminium Fabrication had the least (1 male each). Fashion Design/Dressmaking (9 males and 191 females) had the highest female trainees with Electricals recording the least (1). No trainee enrolled in Steel Bending, Batik, Tie and Dye and Soap Making, Bag & Accessories courses. In 2019, more females (450) were admitted as compared to males (157). In terms of early-exiters, there were more females (6) than males (2). In all, 214 females graduated as against 69 male students. (*See table 29*)

The YIEDIE project enrolled 411 (383 males and 28 females) trainees for the year 2019. Aluminium Fabrication course (85 males only) had the highest male trainees while POP Design (1 male only) enrolled the least. There was no male enrolment for 5 courses. On the other hand, Painting (23 males and 23 females) had the highest Female trainees while Tiling had 1 female trainee only. There was no female enrolment for 12 courses. In general, no trainee enrolled in Interior Decor, Draughtsmanship, Spraying, Entrepreneurship/Soft skills, and Survey Technician trades. The year under review had 2,415 total student population out of which the Male students constituted the majority (2,322) representing 96% and the rest being Female students. There was a total of 9 early-exiters constituting only Males. Out of the total enrolment, 1,766 male trainees graduated as compared to 642 females. (*See table 30*)

## Short Courses (Outreach Programme-Improved Apprenticeship) YIEDIE Project by OICG

In the year 2019, 411 students were enrolled in the YIEDIE project leading to a total student population of 2,417. Compared to the previous year, enrolment reduced by 3,717 representing 90% decline. Early-exiters in 2019 were however, relatively lower than in 2018, thus, reducing from 41 in 2018 to 9 in 2019. Tiling had the highest students early exit rate of 44.4%. Interestingly, the number of students who graduated during the year under consideration were more than those in 2018. Thus, the number of graduates increased by 609 in 2019. The highest number of enrolments occurred in the Block Laying & Concreting (547) followed by Aluminum Fabrication (508) while Interior Decoration and Spraying had no enrolment in the year under consideration. The total number of students who graduated in 2019 were 2,408.

***Short Courses (Outreach Program-Improved Apprenticeship) GEOP Project by OICG***

During the year under consideration, 4 new trade courses were introduced under the GEOP project in addition to Dressmaking. The newly introduced courses include Driving, Hairdressing, Catering and Mobile phone repairs. Each of these courses admitted 35, 27, 23 and 10 students respectively with Mobile phone repairs recording the lowest. Although new programmes were introduced in the year 2019 the total student population remained the same. By the end of the training, 12 students exited early with 81 graduating.

### *Instructional Staff*

The staff strength of OICG over the years keep widening as compared to the ideal staff strength required for the respective years and 2019 is not an exception. Although the OICG had the highest actual staff strength in 2015, there has been a continuous declined from 41 in 2015 to 29 in 2019. The actual staff strength was 42 less the ideal staff strength in 2019. Integrated Subject had the highest staff membership (5) representing 17.2% of the total staff strength while courses such as Carpentry, Catering, Auto Mechanics, Graphic Arts, Building, Draughtsmanship, Welding Fabrication, Tie/Dye & Soap Making and Dressmaking had 1 staff each in 2019. Trades like Hospitality, Fashion Design, Stenography and Hairdressing had no staff.

**Table 36: Instructional Staff (staff strength and ideal staff strength) by OICG**

### ***Management Development and Productivity Institute (MDPI)***

#### *Training Provided*

The MDPI training courses attracted participants from different countries including The Gambia, Liberia, Sierra Leone and Ghana. Together, 547 participated in courses offered by MDPI in 2019. Out of the total, 145 participants pursued Regular courses while 402 took Inplant courses. Also, 122 Ghanaians pursued Regular courses while 383 took Inplant courses. Seventeen (17) Gambians pursued the Regular course while 19 took the Inplant course. 3 Liberians and 3 Sierra Leoneans pursued Regular course offered by MDPI. Ghanaians dominated the participation level in both courses. Like 2018, Inplant courses did not record any student from Sierra Leone in 2019. No student from Nigeria pursued either courses offered by the Institute. MDPI courses registered 9.4% reduction in participation level relative to 2018.

The MDPI offered 88 programmes/courses in 2019, an addition of 12 new programmes, compared to 76 programmes offered in 2018. The increase in courses was accompanied by an increase in the number of enrolments. Data available shows that, total enrolment for MDPI courses have been oscillating from 151 in 2014 to 132 (12.6%) in 2015 and to 138 (4%) in 2016 and 127 (7.9%) in 2017. In 2018, the figure increased to 132 (3.9%). Unlike the trend during the previous years, 2019 witnessed a further increase in total enrolment to 145 (9.8%). Out of the 145 enrolments in 2019, the Managerial Leadership Skills Development programme had the largest number of participants (21), representing 14.5% of the total. Programmes such as Supervisory Management, Procurement Practice and Principles, Internal Auditing, Budgeting and Budgetary Control, Developing a Winning Plan, MIS Compact, Personal Assistants to CEOs, Managing Customer Service, Management Course for Senior Secretaries, Public Financial Management, Procurement & Supply Chain Management, Funds & Debt Recovery Management, Finance & Aviation Audit, Effective Project Management, Attitudinal Change for Improved Productivity, Project Management and Effective Public Speaking had only one participant each. Out of the 88 programmes offered in 2019, 48 programs had no enrolment compared to 45 out of 76 programmes in 2018.

During the year under review, MDPI offered 109 Inplant courses, an addition of 11 courses compared to 98 Inplant courses offered in 2018. The number of participants increased to 410 (12.3%) as compared to 365 in 2018. Managing Attitudes programme had the highest enrolment

of 75 representing 18.3% of the total enrolment. Programmes such as Risk Based Internal Auditing, Budgeting and Budgetary Control, Finance & Aviation Audit, Financial Accounting and IFRS, Personal Assistants to CEOs and Records Management had only one participant. Eighty-three (83) programmes had no participants as compared to 49 in 2018.

## 6.6 Pensions Regulation

### *National Pensions Regulatory Authority (NPR)*

#### *Growth Indicators of SSNIT Scheme*

In 2019, the NPR reported a total of 1,625,253 Active Contributors, 215,852 Pensioners and 68,431 Establishments. The number of Active Contributors increased by 5.03% relative to 2018, Pensioners increased by 7.93% and Establishments increased by 3.14% respectively. As can be seen in Figure 23, the number of Active Contributors, Pensioners and Establishments has more than doubled from 2019 relative to 2006.

Figure 23: Growth Indicators of SSNIT Scheme

### Private Pension Schemes (Tiers 1&2)

In 2019, the NPRA had a total of 241 Private Pension Schemes in operation; this was a decrease by 7.66% relative to 2018. Generally, all the types of Private Pension Schemes in operation declined in number relative to 2018.

The Employer Sponsored Occupational Scheme had the highest number (33.20%). This was followed by the Employer Sponsored Provident Scheme (21.58%) with the Group Pension scheme recording the least (3.32%).

Table 38: Status of Private Pension Schemes (Tier 2&3) as at 2019

| Scheme Type                               | 2017      |                    | 2018      |                    | 2019      |                    |

### *Number of Voluntary Private Schemes in Operation (tier 3)*

In 2019, the number of Voluntary Private Pension Schemes in operation was 114. From 2014 to 2019, the number has been undulating from 106 in 2014, 115 in 2015, 109 in 2016, 124 in 2017 and 122 in 2018. The 2019 figure indicates a decrease by 7% and 8% relative to 2018 and 2017 but an increase by 5% as compared to 2016. The number of Group Personal Pension Scheme stayed the same at 9 from 2014 to 2016 and increased by 11% in 2017 but declined by 25% in 2019. Also, the number of Personal Pension Scheme was 10 in 2014, increased to 12 in 2015 and remained the same for 2016. The number increased to 21 in 2017 and increased to 22 in 2018 and fell back to 21 for 2019. The decline in the total number in 2019 was attributable to the fact that there was a drop in the number of Employer Sponsored Provident Fund Scheme, Master Trust Provident Fund Scheme and Group Personal Pension Scheme relative to 2017.

**Table 41: Number of Voluntary Private Schemes in Operation (Tier 3)**

### *Coverage of Mandatory Scheme*

Under the SSNIT Scheme, the number of Active Establishments increased by 15% and 13% in 2015 and 2016 respectively but fell by 11% in 2017. The number of active establishments increased by 29% in the subsequent year and 2% at the end of the review year. Generally, the number of contributors under the SSNIT Scheme increased from 2014 to 2019. The number of contributors increased by 4%, 5%, 0%, 18% and 5% from 2014 to 2019. At the end of the year under review, 50% of formal sector workers were covered by the SSNIT Scheme.

Under the Private Pension Scheme, the number of active establishments increased by 16%, 67%, 18%, 51% and 122% from 2014 to 2019. The number of contributors increased by 51%, 27%, 5%, 4% and 5% from 2014 to 2019 under the Private Pension Scheme. At the end of the review year, 54% of formal sector workers were covered by the Private Pension Scheme. (See Appendix 12)

### *Asset Portfolio (Tiers 1, 2 and 3)*

The total asset portfolio of the SSNIT Scheme increased by Gh¢78,526,000.00 and Gh¢882,539,000.00 in 2016 and 2017 respectively but fell by Gh¢528,666,000.00 and Gh¢313,174,000.00 in 2018 and 2019 respectively. The total asset portfolio of the Private Pension Scheme has consistently increased by Gh¢2,120,837,797.00, Gh¢4,230,232,208.00, Gh¢1,990,428,107.00 and Gh¢4,248,662,679.00 from 2015 to 2019.

At the end of the review year, the total asset portfolio for SSNIT Scheme and Private Pension Scheme was Gh¢26,191,569,255.00.

In aggregate, the asset portfolio increased by Gh¢2,199,363,797.00 from 2015 to 2016, Gh¢5,112,771,208.00 from 2016 to 2017, Gh¢1,461,762,107.00 from 2017 to 2018, Gh¢3,935,488,679.00 from 2018 to 2019.

Figure 24: Asset Portfolio (Tiers 1, 2 and 3)

### Rate of Return on Investment (ROI)

At the end of the year under review, the Real Rate of Return on Investment (ROI) under the SSNIT Pension Scheme was -0.99%. This indicates an improvement in the performance of the investment by 1.97% relative to 2018, a decrease by 4.27% relative to 2017 and an improvement by 4.94% compared to 2016.

In 2019, the nominal Rate of Return on Investment (ROI) under the SSNIT Pension Scheme was 3.97% indicating a decrease in the performance of investment by 6.58%, 14.32% and 3.44 relative to 2016, 2017 and 2018 respectively.

Table 42: Rate of Return on Investment (ROI)

| Scheme Type | Nominal Rate of Return (%) |       |      |      | Real Rate of Return (%) |      |       |       |
|-------------|----------------------------|-------|------|------|-------------------------|------|-------|-------|
|             | 2016                       | 2017  | 2018 | 2019 | 2016                    | 2017 | 2018  | 2019  |
| SSNIT       | 10.55                      | 18.29 | 7.41 | 3.97 | -5.93                   | 5.26 | -2.96 | -0.99 |

### Growth of the 3-tier scheme from 2012 – 2019

The 3 tier pension schemes, in total, grew at Gh¢117,538,678,251.85 from 2012 to 2019. The scheme grew by 23% in 2019 (Gh¢26,709,549,255.74). The amount realized from these schemes

has consistently increased during the previous years. The schemes grew by 19% (Gh¢22,256,080,576.00), 15% (Gh¢17,374,619,629.08) and 13% (Gh¢15,713,685,261.68) in 2018, 2017 and 2016 respectively.

In 2019, the value of Tier 1 (SSNIT) was Gh¢9,346,280,000 which is a decrease of Gh¢103,806,000 and Gh¢425,541,000.00 relative to 2018 and 2017 respectively. The Asset under Management (AUM) under Tier 2 & 3 increased from Gh¢5,581,864,490.08 in 2017 to Gh¢11,068,178,541.00 in 2018 and Gh¢17,363,269,255.74 in 2019. The growth in GDP increased steadily from 2012 to 2015 (6.8%, 7.4%, 8.8%, and 9.7%) but decreased from 2016 to 2019 (9.3%, 8.5%, 7.1%, and 7%). Overall, the total value of the 3 Tier Scheme had a steady increase from 2012 to 2019.

Figure 25: Growth of 3-tier scheme, 2012-2019

### Informal Sector

Under the informal sector, a total number of 31 private pension schemes were registered at the end of the review year representing 48% and 3% increase over that of 2016 and 2018 respectively. Out of this figure, 21 were Personal Pension scheme while 10 were Group Personal Pension scheme. Generally, the total number of schemes has been undulating from 2016 to 2019.

**Table 43: Informal Sector**

| <b>Type of Scheme</b>  | <b>2016</b> | <b>2017</b> | <b>2018</b> | <b>2019</b> |

## 6.7 Youth Employment Agency

### *Beneficiaries Modules*

In 2019, a total of 17,358 youth was engaged in Community Policing under the Youth in Community Service and Security Module. This figure represents the largest cohort of youth engaged under the module from 2016 to 2018. Within the same period, 3,000 youth were enrolled in the Youth in Arabic Education Programme of the Community Teaching Module relative to 5,632 participants in 2016. This represents 46.7% decrease in participants compared to 2016. Eight hundred and ninety (890) youth were also engaged in the Youth in Agricultural Extension Programme in 2019 as compared to 959 in 2017, showing a slight decrease (7.2%) in participation. Under the Internships Module, 111 youth were engaged in Youth in Graduate Internship relative to 107 in 2017. This represents a slight increase (3.7%) in participants. Over the same period, 1,990 and 100 youths were engaged in the Youth in Sport and Flagship (Maize Production) modules respectively. These represent improvement in participation. In all, 23, 449 youth participated in the 2019 beneficiary modules compared to 7,131 in 2017. This shows an improvement in the level of participation by over 200 percent.

### *Beneficiary by Sex*

In 2019, the ratio of the total number of males to females engaged was 3:1 compared to 2016 which was 1:1 while 2017 was 2:1. Under the Community Policing Module, the percentage of male youth that was engaged was 71 percent whilst female youth was 29 percent. Under the Youth in Arabic Education module, 93 percent of the youth engaged were males whereas 7 percent were females. The ratio of male to female youth engaged under the Youth in Graduate Internship was 2:1. Under the Youth in Sport, Flagship (Maize Production) and Youth in Agricultural Extension, over 75 percent of the youth engaged were males whereas the remainder were females. In all, 2019 total number of participation shows improvement as compared to 2017. Males continue to benefit more from the modules compared to females from 2016 to 2019.

**Table 45: Beneficiary by Sex**

| Modules   | 2016          |               | 2017         |              | 2018     |          | 2019          |              |

*Beneficiary by Region*

The Ashanti Region continues to record highest engagement in the Beneficiary modules. The Region had 4,549 (19%) participants as compared to 7,030 and 1,402 in 2016 and 2017 respectively. Relative to 2016, this represents a 35.3% decrease but relative to 2017, it shows 224.5% increase in engagement. Next to the Ashanti Region is the Greater Accra Region accounting for 13 percent of the total. Both Brong Ahafo and Northern Regions represent 12

percent each whereas Central and Eastern Regions also accounted for 11 percent each. The Upper East, Volta and Upper West Regions had the lowest number of engagements with 6, 5 and 4 percentages respectively. Relative to 2017, data on Upper East, Upper West and Volta Regions show an improvement in the level of participation.

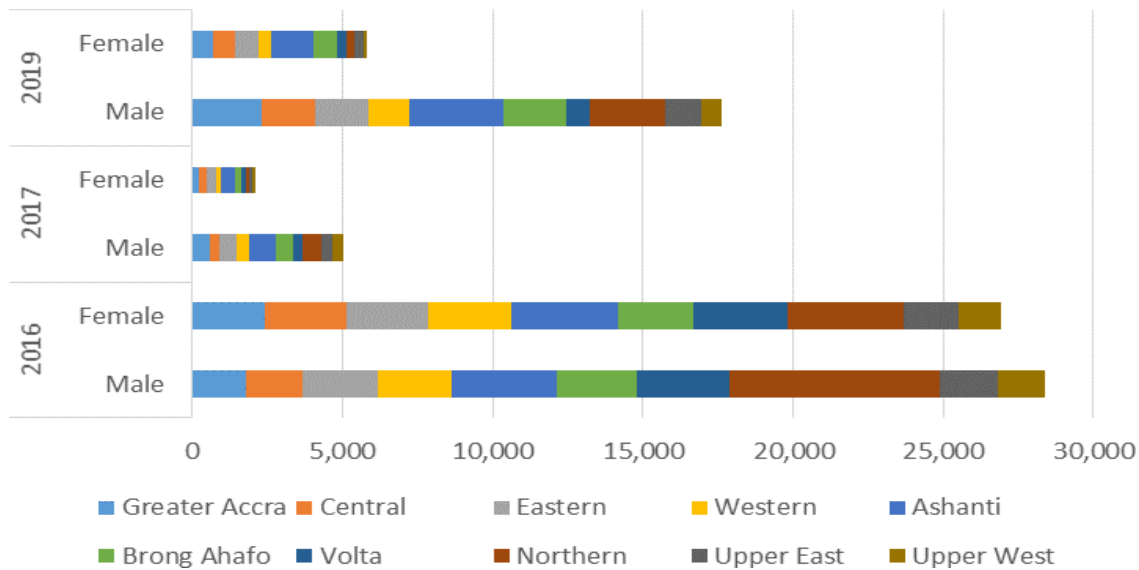

Figure 26: Beneficiary by Region and Sex

### Job Centre

NIC Various Insurance had the highest number (606) of recruits. This represents 92.9% of the sum total of 2019 recruits. This was followed by G4S and KEK Insurance with 20 and 10 participants each, representing 3.1% and 1.5% of the total recruits. Modern City had one (1) recruit and this shows the lowest number of recruits. (See Appendix 13)

## 7.0 CONCLUSION

As part of the pursuit of the Ministry of Employment and Labour Relations (MELR) to bring to bear the activities, performance, achievements and challenges of its Departments and Agencies to inform policy planning, formulation, implementation, monitoring and evaluation, the Research, Statistics and Information Management (RSIM) Directorate of the Ministry collates, analyzes and compiles up- to-date data from the activities of its Departments and Agencies into a Statistical Report on yearly basis. Like previous editions, this year’s report covers employment and labour-related issues and it comes at the time when the world is experiencing the coronavirus

pandemic that is adversely impacting on the lives and livelihoods of the citizenry especially employment. With a decade remaining to the closure of the Sustainable Development Goals (SDGs) and also, as part of Ghana's commitment to achieve the SDGs, this report provides information immensely useful for informing public policy formulation and enabling public policy monitoring and evaluation.

The Ministry's 2019 Statistical Report employs strict harmonized administrative data/statistics from the activities and performance of its Departments and Agencies during the year. In spite of the challenges with the scope and coverage of the administrative data collected and submitted by the various institutions under the MELR, we observed statistically, the significant progress made in the activities and performance of the various institutions under the MELR. Be that as it may, the data/statistics provided in this report should not be considered as a holistic representation of employment and labour-related issues in the entire country. The data in this report does not represent activities undertaken across the country but by all institutions under the MELR.

Further research and data collection are required to better understand the activities to determine the employment and unemployment issues in the country. This will augment the information provided in this report to be representative of the country's situation on employment and labour related issues.

It is envisaged that effective use and active monitoring of the Ghana Labour Market Information System (GLMIS) will enhance the availability of an extensive administrative data on employment and labour-related issues in our dear country to enable timely and accurate reporting. This will be of enormous benefit to the Ministry to continue to improve on successive Statistical Reports.

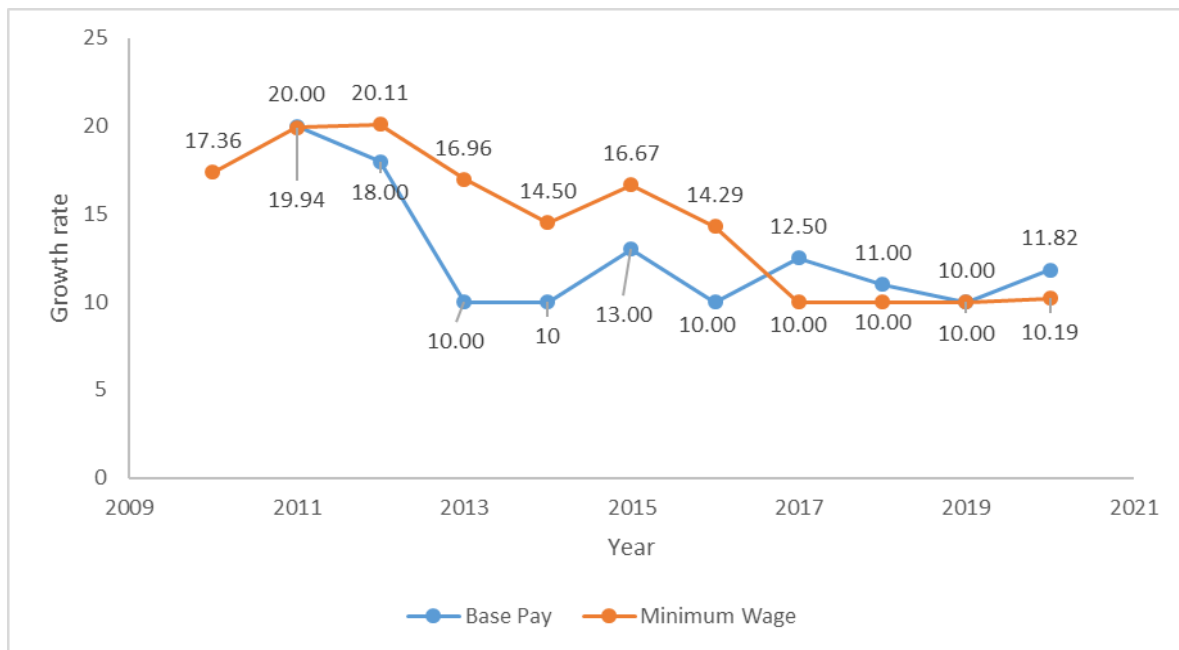

# APPENDICES

**Appendix 1: Pay Negotiation (% increment) 2010-2019**

***NB: There was no negotiated Base Pay increment in 2014. Rather a Cost of Living Allowance (COLA) of 10% was given to Public Sector Workers***

**Appendix 2: Regional Distribution of Live Register (Unemployment) by Age groups**

| <b>Total</b>          | <b>652</b>              |

## GLOSSARY

**Corporate Trustees** - They register and administer the Pension Schemes in line with the Scheme Rules and Trust Deed of the Scheme, maintain investment policy statements, keep proper accounting records and members' register, prepare and lodge annual reports, etc.

**Employee/Worker** - A person employed under a contract of employment whether on a continuous, part-time, temporary or casual basis.

**Early-exiter** – A person who for one reason or the other dropped out from school.

**Employer** - Any person who employs a worker under a contract of employment

**Health** - a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.

**Industrial dispute** - Any dispute between an employer and one (1) or more workers or between two (2) or more workers which relates to the terms and conditions of employment, the physical condition in which workers are required to work, the employment and non-employment or termination or suspension of employment of one (1) or more workers and the social and economic interests of the workers; but does not include any matter concerning the interpretation of the Labour Act, 2003 (Act 651), a collective agreement or contract of employment or any matter which by agreement between the parties to a collective agreement or contract of employment does not give cause for industrial action or lockout.

**Labour inspection** – According to Section 122 of the Labour Act, 2003 (Act 651), “there shall be carried out inspection to (a) secure the enforcement of the provisions of this Act relating to conditions of work and the protection of workers at their workplaces, including the provisions relating to hours of work, wages, safety, health and welfare of the workers and the employment of young persons; (b) provide technical information and advice to employers and workers concerning the most effective means of complying with the provisions of this Act; (c) bring to the notice of the Labour Department or the [National Labour] Commission any defects of this Act; and (d) report to the Labour Department or the Commission other unfair labour practices or abuses not specifically provided for by this Act.”

**Live Register** – This is a record of persons whose applications for employment (PEC 4 Cards) continue to be on the records of the PEC for at least three months. This record should be kept in occupational group.

**Private Employment Agency** – Anybody corporate which acts as an intermediary for the purpose of procuring employment for a worker or recruiting a worker for an employer.

**Public Employment Centre** - Established under Section 2 of the Labour Act, 2003 (Act 651), Public Employment Centres assist unemployed and employed persons to find suitable

employment; and assist employers to find suitable workers from among such persons, amongst other duties.

***Pension Fund Manager*** – Pension Fund Managers play an advisory role to Trustees in the investment of Pension Funds and maintains book of accounts on transactions related to pension funds invested.

***Pension Fund Custodians*** – Pension Fund Custodians hold the Pension Fund assets in trust for members of the various Schemes.

***Safety*** - the condition of being protected from an unlikely cause of danger, risk, or injury.

***Standing Joint Negotiation Committee*** - A body consisting of representatives of two (2) or more trade unions; and one or more trade unions and employer's representatives established for purposes of collective bargaining; and authorized by or on behalf of those trade unions and employers' representatives to enter into collective agreements on their behalf.

***Strike*** - Any action by two (2) or more workers acting in concert, which is intended by them to restrict in any way the service they normally provide to the employer, or diminish the output of such service with a view to applying coercive pressure upon the employer; and includes sympathy strike and those activities commonly called a work-to-rule, a go-slow or a sit-down strike.

***Workplace*** - includes any place where a worker needs to be or to go by reason of his or her work, which is under the direct or indirect control of the worker;

## MELR 2019 STATISTICAL REPORT DEVELOPMENT TEAM

| NO. | NAME                     | GRADE                        |
|-----|--------------------------|------------------------------|
| 1.  | Kizito Ballans           | Chief Director               |
| 2.  | George Owusu-Ansah Amoah | Deputy Director              |
| 3.  | Emmanuel Yeboah          | Deputy Director              |
| 4.  | Francis Yankey           | Programmer                   |
| 5.  | Vera Asante              | Assistant Programmes Officer |
| 6.  | Clarice Panyin Nyan      | Assistant Research Officer   |
| 7.  | Kennedy Dometuur         | Assistant Programmes Officer |
| 8.  | Evelyn Dede Mensah       | Assistant Programmes Officer |
| 9.  | Prince Otu               | Assistant Director IIB       |

**One (1) Day Validation Workshop on MELR Draft 2019 Statistical Report at the MELR Conference Room, on Thursday 12<sup>th</sup> October, 2020.**

### List of Participants
